

## TI\_2133: Converting 1/1 mobile oven racks from double castors to single castors

For mobile oven racks, see Relevant product/accessory

17/01/2022

### Subject

To improve the travel behaviour and handling of the 1/1 mobile oven racks, they will be equipped with single castors instead of the previous double castors with immediate effect

### Affected product/accessories

Mobile oven racks for iCombi Pro and iCombi Classic

- 6-1/1
- 10-1/1

| Mobile oven rack for type         | Article number |
|-----------------------------------|----------------|
| 6-1/1, 10-1/1                     | 60.74.000      |
| Combi-Duo for type 6-1/1, 10-1/1  | 60.75.388      |
| adjustable for type 6-1/1, 10-1/1 | 60.75.606      |

Tab. 1: Affected mobile oven racks including article number

### Required components

If you need the new **single castors** as a replacement part, they are available under the following article numbers:

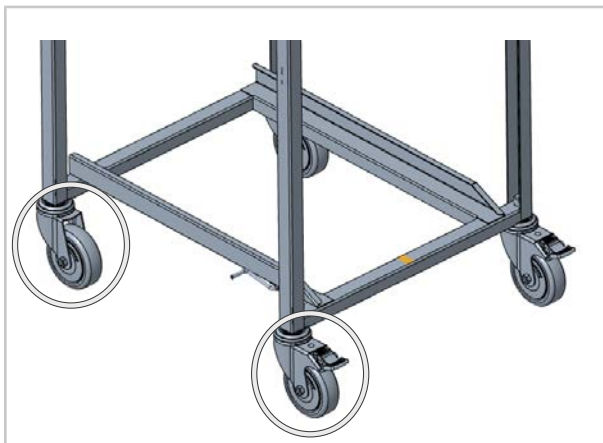

| Component                     | Article number |
|-------------------------------|----------------|
| Castor with brake function    | 60.73.531P     |
| Castor without brake function | 60.73.532P     |

### General information

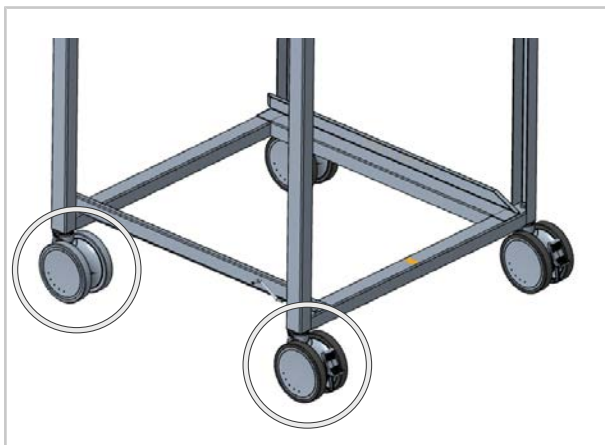

This part change has no impact on the operation of the mobile oven racks.

- The 1/1 mobile oven rack can still be used with double castors, no replacement of mobile oven racks in the field is required.
- The 2/1 mobile oven rack must still be used with double castors.

#### New delivery state of 1/1 mobile oven racks with single castors.

**Previously used double castors of the mobile oven racks.**

**NOTE:**  
**No other actions are required.**
