

TI_2208: Required software update for RATIONAL cooking systems for Connected-Cooking

iCombi Pro, SCC from 09/2016, iVario,
VCC from 09/2016

04/05/2022

Subject

We would like to inform you that the current security certificate in the unit software of RATIONAL cooking systems, which supports the ConnectedCooking platform, will expire on 31/07/2022 and will no longer provide the desired connection to ConnectedCooking and data transfer from 01/08/2022.

Affected product/accessories

- iCombi Pro
- SelfCookingCenter from 09/2016
- iVario
- VarioCookingCenter from 09/2016

Repair/modification:

With the following software versions, the new ConnectedCooking certificate is implemented in the unit software:

Unit	Software
iCombi Pro	LM100 – 16.0.24 and later
SelfCookingCenter	SCC_WE 07-00-10.5 and later
iVario	LMX – 2.6.12 and later
VarioCookingCenter	VCC_01-01-04.5_01-02-04.5 and later

In order to continue offering maximum benefit for our customers, we ask that you update the RATIONAL cooking systems to the latest software version at the next customer visit.

Please forward this information to all colleagues and also inform your customers about the update in order to prevent unwanted downtimes.

If you have any questions, please contact your RATIONAL Technical Service contact.
