

TI_2302: Service parts – Provision of instructions – Information

CombiMaster, CombiMaster Plus, SelfCookingCenter, iCombi,

27/05/2026

Topic

We hereby inform you that, for sustainability reasons, all service parts are marked with a QR code, which provides access to the current instructions.

General information

Until the end of December 2022, our service parts came with a hard copy manual.

From January 2023, these instructions will no longer be enclosed in paper form.

To access the available instructions, a QR code is provided on a sticker on the packaging of the service part.

An English version of the instructions will now also no longer be enclosed in paper form with service parts for iCombi Pro and iCombi Classic.

Service parts sticker with QR code

Service parts sticker without QR code

NOTICE

Do not throw away the service part packaging immediately.
The sticker with the QR code can be found on the service part packaging.

Revision Log

Changes from previous version of this document:

Change under "General information": For the iCombi Pro and iCombi Classic, information will no longer be included in paper form.

NOTE:

No further action is required.
