Affected product/accessories

iCombi Pro Electric and gas

- 6-1/1
- 6-2/1
- 10-1/1
- 10-2/1

More information

We are pleased to inform you that, from today, the new cleaning option iCareSystem AutoDose for iCombi Pro tabletop units is available to order as an option ex works.

The new system is fully integrated into the existing iCombi Pro platform, which means that **no** additional space is required for chemical storage.

The installation is identical to the current RATIONAL cooking systems and no additional work is required.

To make your work as a service technician easier, you will find all necessary modification instructions enclosed with the new service parts. The new service parts have been added to the Basic Service Parts Stock List and are available to order now. As always, you will find all relevant information on the familiar RATIONAL information platforms (e.g. RATIONAL Portal, TechAssistant APP, etc.).

All relevant measured values have also been integrated into the service level for better repair and a new module test has been programmed for the iCareSystem AutoDose-system.

The new option can only be ordered ex works and cannot be retrofitted.
