

TI_2501: Rear spacer

iVario Pro L/XL

14/05/2025

Topic

To ensure a minimum distance of 30 mm between the rear of the unit and the wall, units from production date 18 February 2025 are supplied with a rear spacer as standard. The rear spacer can be retrofitted if necessary.

Note that the rear spacer must be removed when installing a wall mounting or the steam discharge wall connection kit. To do this, loosen the screws on the underside of the rear spacer.

 CAUTION

Sharp-edged panels

There is a risk of cuts when removing the rear spacer.

- Wear protective gloves

Affected product/accessories

iVario Pro
