

Topic

To ensure a minimum distance of 30 mm between the rear of the unit and the wall, the units iVario 2-XS and iVario Pro 2-S are supplied with a rear spacer as standard from production date 30 April 2025. The rear spacer can be retrofitted if necessary. This can be ordered as a service part under article number 12.03.550S .

⚠ CAUTION

Sharp-edged panels

There is a risk of cuts when removing the rear spacer.

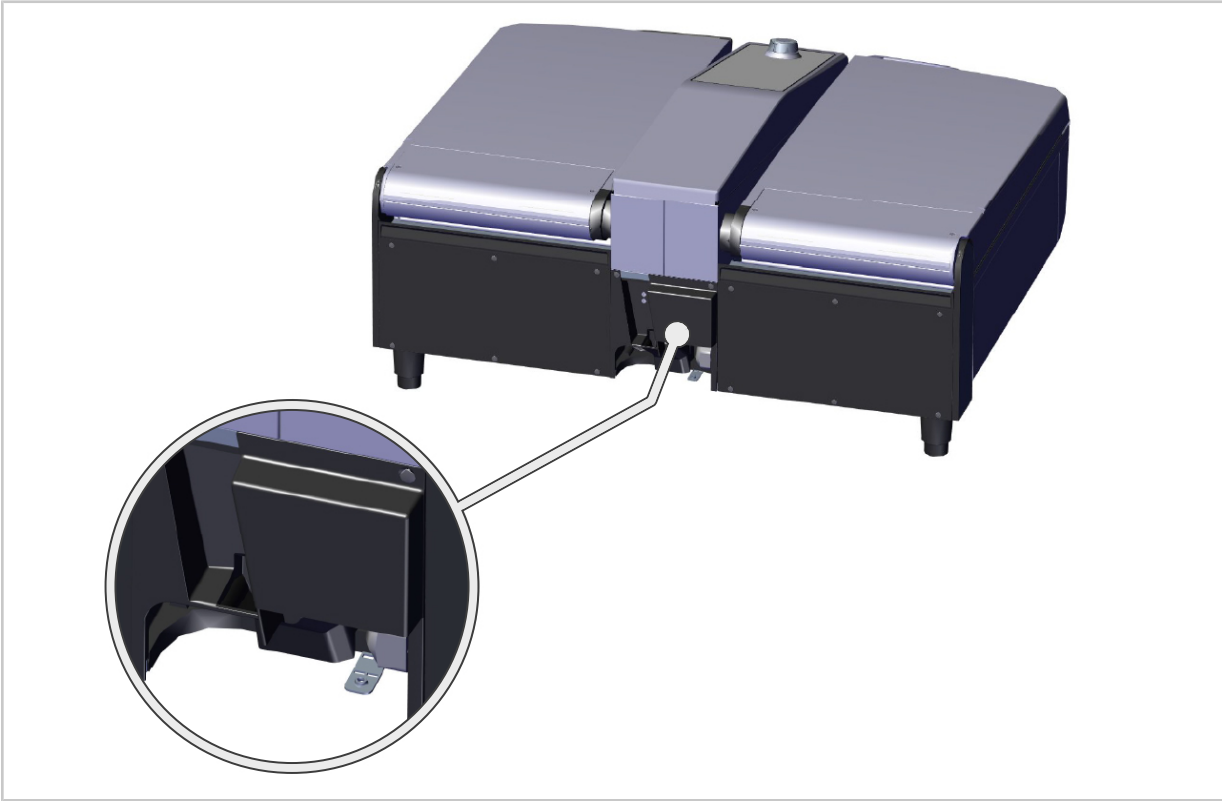

- Wear protective gloves

Affected product/accessories

- iVario
 - 2-XS
- iVario Pro
 - 2-S

Required components

Component	Article number
Rear spacer	12.03.550S

Installation on stands without 30 mm wall clearance

When installing an iVario 2-XS or iVario Pro 2-S on a stand that does not cover a distance of 30 mm, a 30 mm stand extension retrofit kit (1) can be installed. This can be ordered as a service part under article number 60.79.644P .

Component	Article number
Extension 30 mm for stand	60.79.644P
