

TI_2604: The new care and clean assistant

19/02/2026

Topic

From **LMX-3.2.6**, the iVario gets a central new feature – **Care and clean assistant**.

Affected product/accessories

- iVario

General information

Two specially developed programs help care for the iVario:

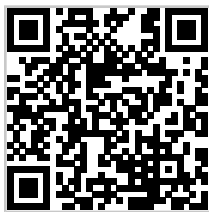

- **Supporting cleaning program:** For efficient cleaning of the inside of the pan.
- **Pressure system cleaning:** Ideal for frequent pressure cooking and protein-rich foods.

The user is notified when the duration of the pressure cycles has been exceeded and prompted to clean.

Both programs offer automated functions and step-by-step instructions.

An integrated QR code leads directly to a video with practical care instructions – easy to understand and available at any time.

NOTE:

No further action is required.
