

TI_2610: Hot air heat exchanger service part assemblies adaptation

SelfCookingCenter, CombiMaster and CombiMaster Plus

03/08/2026

Topic

The 202G hot air heat exchanger will also be adapted as part of the adaptation of the service part assemblies.

As of 01/08/2026, the 202G hot air heat exchanger will be supplied individually, in the same way as the 201G hot air heat exchanger. The required seals are included in the scope of delivery. The change relates solely to the packaging and the scope of delivery. The component remains technically unchanged. All 202G hot air heat exchangers previously installed or currently in stock can continue to be used and installed without restriction.

Affected units

SelfCookingCenter, CombiMaster and CombiMaster Plus – gas units

- 20-2/1

Affected components

Old service component assemblies for the hot air heat exchanger

Item number	Component
87.01.339	Replacement kit heat exchanger cpl. 202 2/11
87.01.576S	Replacement kit heat exchanger cpl. 202 US
87.01.628S	Replacement kit heat exchanger cpl. 202 2/11
87.01.630S	Replacement kit heat exchanger cpl. 202 US
87.01.731S	Replacement kit heat exchanger cpl. 202 02/20
87.01.733S	Replacement kit heat exchanger cpl. 202US2/20
87.01.909S	Replacement kit WT 202 special campaign 21/22

New article numbers of the hot air heat exchanger

Item number	Component
87.02.127S	Hot air heat exchanger 202/G top 02/11
87.02.128S	Hot air heat exchanger 202/G bottom 02/11

NOTICE

No further action is required.
